

# Getting a Handle on Data Storage Growth and Management

TECH8

David has more than 15 years of experience as a courtroom litigator and in legal technology management. David has implemented new technologies in support of complex litigation and discovery preparedness, designed and implemented case and matter management systems and document management systems and advised on email archiving initiatives.

**David Rohde**  
Senior Director of Consulting Services  
Epiq Systems

Leigh has over 25 years of combined legal and information management experience. Her expertise includes deployment of enterprise programs, development of information management programs, onsite and offsite storage considerations (including outsourcing, process improvements, evaluation and implementation of technology solutions), and the disposition of information for dissolved entities.

**Leigh Isaacs**

Director - Records & Information Management  
Orrick, Herrington & Sutcliffe LLP

**Adam Carlson**

Security Solutions Consultant  
IntApp, Inc

Adam has over 10 years of experience in IT operations and security management. Adam holds the ISACA Certified Information Security Manager (CISM) certification and has a master's degree in computer security from UC Davis. He now helps law firms achieve their information security and privacy goals.

**Todd Corham**  
Chief Information Officer  
Sedgwick LLP

Todd has been involved in legal technology for over 25 years. Todd is a co-author of ILTA's Technology Survey, and he writes and speaks about legal technology for various industry groups and publications
