

Collaboration in the Cloud: The Paradigm Shift

Presenters:

Peter Attwood - Simmons and Simmons

Dean Leung - Davis LLP

Karen Jaworski - i365, a Seagate Company

Moderated by Eric Hunter, Bradford & Barthel, LLP

Questions for the Audience:

- Why do you think this is a paradigm shift?
- What are your concerns with Jurisdiction and Geographic Boundaries?
- Is Cloud Hosted or Collaboration the more important focal point for firms and their clients to consider?

Cloud-Based Disaster Recovery

1. Normal Operations

Mission Critical Servers

- Email
- Database
- File

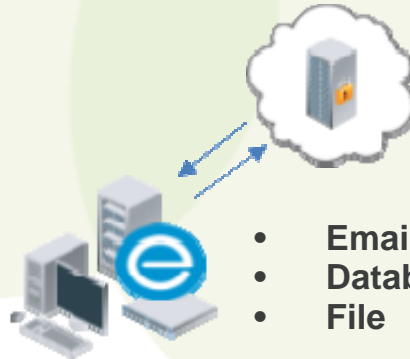

Protection in EVault Cloud

2. Site Disaster

Recovered Servers within 24 Hrs

- Email
- Database
- File

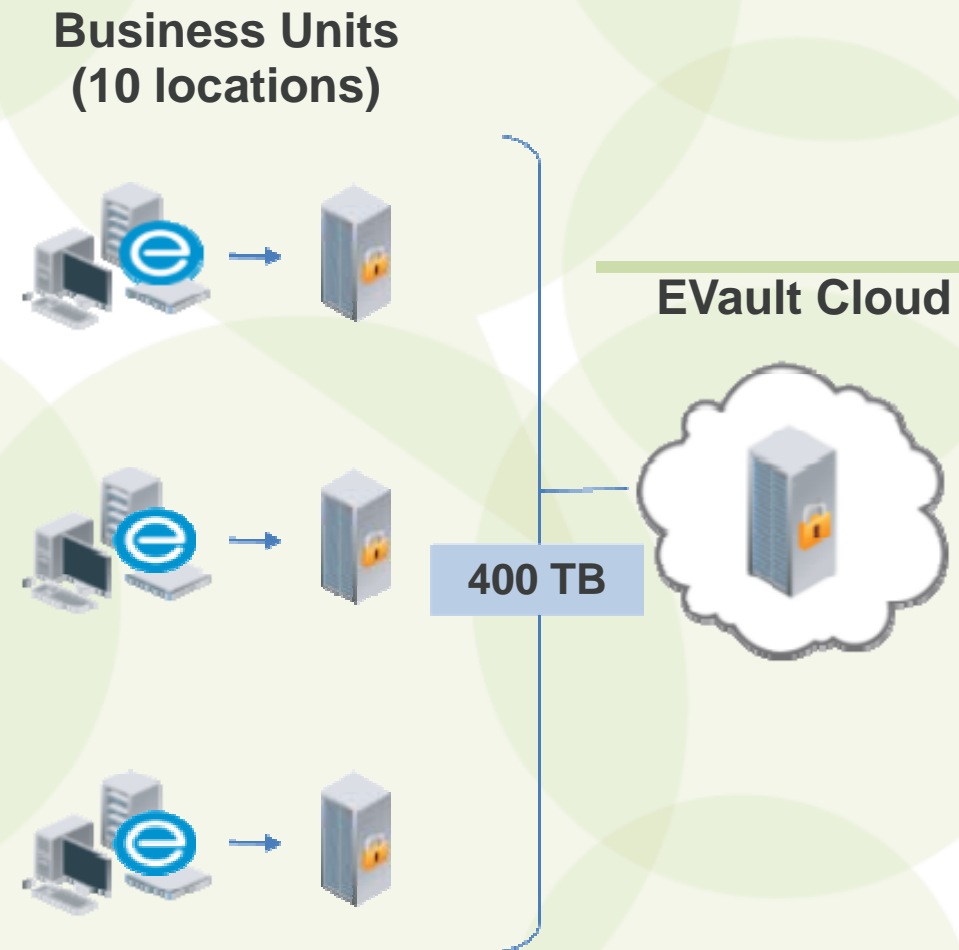

I365 DR Experts

Hybrid Cloud Deployments

Sample deployment of large diversified media company

Needed:

- “Elastic Cloud” to accommodate 35% annual growth
- Onsite data cache for rapid recovery

The Proposition...

OCS is cool technology with the potential to have a positive effect on the bottom line

•Tools

IM

Communicator call

Live meeting (replaces physical meetings)

Video conferencing

Federation (talk to Microsoft!)

Social Networking

What's In the CLOUD

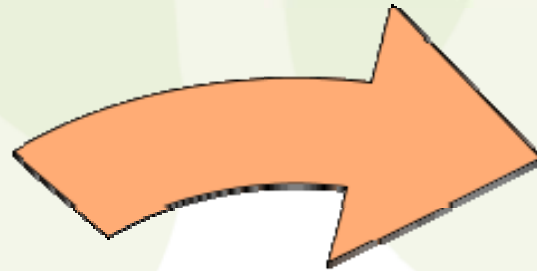

- Software (Services), e.g. SAP
- Storage
- Servers
- Disaster Recovery
- Desktops

Can the CLOUD save me money?

- Opex vs Capex
- Economies of Scale
- Reduced cost of Upgrades

The Evolving Paradigm

A cloud
hosted
SaaS system
is an
evolving
paradigm

There is a
strategic
relationship
between your
firm
and the vendor

Your business
model is
affected
by the processes
integrated
within
your firm
