

HOW FUTURE TECHNOLOGY WILL EFFECT LITIGATION SUPPORT

#ILTA146

PANELISTS

- Craig Ball – ESI Special Master & Forensic Consultant
- Dave Copps – CEO Brainspace
- Brendan Hall – VP of Business Dev, Xerox Legal
- Jay Leib – Founder NexLP
- Stephen Dooley – Moderator

NEW & EXPANDING SOURCES OF DATA - “*THE DATA WATERFALL*”

Internet of Things
Personal Devices (e.g. Echo, Cortana, Siri)
Geo-Location data
Virtual reality
Automotive & Autonomous Driving
Application data
Video & audio recordings
Social media
Emoticons
Medical technology
Fitness tracking
Habit tracking (marketing and advertising)
Virtual currency
Many Others

TECHNOLOGY CHALLENGES

- How to collect, process and analyze new data sources
- Structured Data
- Synthesizing across data sources
- Information Analytics & Learning
- Assembly of information about information (Context beyond text)
- Authentication (Ease of data manipulation)

INFORMATION GOVERNANCE/ RECORDS MNGMT

- Data Classification
- Searching non-semantic sources (Video, Photos, sentiment analysis)
- Retention
- Bringing sources together

PRIVACY

- Privacy Shield
- Cloud
- Foreign v. Domestic
- BYOD
- Security

CAREERS

- Data Analysts & Scientists
- Information integration and implementation
- Security/Compliance
- Competency

AI

- Case Study
- Data Classification
- Machine Language
- Translation
- Morality

HOW TO PREPARE FOR THE FUTURE

- Awareness & Knowledge
- Engage (test & try)
- Identify Sources Needed
- Analyze Policies
